## Parcel Safe™
PROTECTING WHAT'S YOURS

The Parcel Safe Mobile App works with the **DefenderPlus** (providing three helpful functions), and full functionality with the **Defender Advantage**. Our Mobile App offers the home and business owner unparalleled convenience and control. Whether it's your home, business, beach house, lake cabin, or all four, you get real time, up-to-date information and fingertip control about who, when and how often someone accesses each Parcel Safe unit.
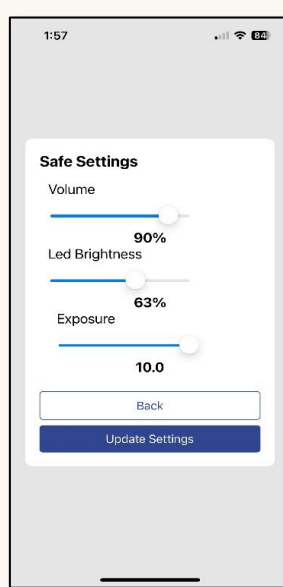

Mobile Application

+ Real-time notifications about connectivity and when the power is off and back on.
+ Real-time notifications about who opens the door, when the door is opened, and when it has been closed.
+ Real-time notifications and emails when the door's left opened, and when its finally closed.
+ Real-time notifications and pictures in the Activity screen of what has been delivered and who delivered it.
+ The ability to add users, give specific rights to any users, change PIN codes (keypad access codes), and when and how many times users have access.
+ The ability to change the speaker volume in noisy environs.
+ Change the brightness of the outside LED showing that everything is working (green) or there is a problem (red).
+ Change the inside camera's exposure for darker environs when taking a picture of delivered packages.
+ And, with just two clicks, open the unit remotely from anywhere in the world that you have a Wi-Fi or cell connection.
