

Defender

- + Type: Defender
- + Material: 14-gauge powder coated steel
- + Dimensions: 21" w x 20 1/8" h x 19 1/4" d
- + Weight: 59.2 lbs
- + Price: \$599.00 + tax and shipping*
- + Mobile app: No

The **Defender** is our entry level Parcel Safe unit that can easily be installed almost anywhere. It is a simple but effective Parcel Safe unit that operates with no power requirements. Deliveries are easy. The carrier just opens the pull-down door and drops the package into the unit, passing it into the garage, behind a fence, or in some other secured area. The Defender has a 17 1/2" w x 12" h x 12" d opening and can accommodate approximately 75%** of delivered packages. It even has a black strip screen that obscures someone casually looking inside the box.

The **Defender** unit does not utilize the Parcel Safe mobile application. Feel free to review our additional information for more detailed dimensions and installation ideas.

Unit Specifications Defender
