- + Material: 14-gauge powder coated steel
- + Dimensions: 21" w x 20 1/8" h x 19 1/4" d
- + Weight: 59.2 lbs
- + Price: \$699.00 + tax and shipping*
- + Mobile app: Yes (limited to 3 sensors)

The **DefenderPlus** is a small but important step above the Defender. Just like the Defender, installation is straight forward, and deliveries are easy. The carrier just opens the pull-down door and drops the package into the unit, passing it into the garage, behind a fence, or in some other secured area. The **DefenderPlus**' 17-1/2" w x 12" h x 12" d opening can accommodate roughly 75%** of delivered packages. It even has a black strip screen that obscures someone casually looking inside the box.

While dimensions and unit operations are the same as the Defender, **the DefenderPlus** incorporates several convenient sensors for the customer. There are notifications that the door has been opened, the door has been closed, and if something has passed through the bottom of the unit. These features are available with an annual subscription fee of \$30.00/year, purchased from the Parcel Safe mobile application. The **DefenderPlus** has two power options, 110V or 18-24 Vac, whichever is most convenient. .

Unit Specifications Defender			
UNIT PRICING	MATERIAL & SPECS	UNIT DIMENSIONS	UNIT WEIGHT
\$699	1. 14-gauge steel	21" w x 20 1/8" h x 19 1/4" d	59.2 lbs
UNIT PRICING	2. 304/316 SS fasteners & hardware	DOOR DIMENSIONS	
\$30/yr	3. 110V or 18-24Vac	17 1/4" w x 12 1/4" h	

** Taxes and shipping are charged based on applicable sales tax and shipping costs depending on where the customer lives, and the product is delivered.*

*** According to Claude AI, approximately 75% of delivered packages will fit in the opening of the Defender*
